#WHYI DREAM

Will I be a scientist?
An inventor?

“ **I wonder who I will become.**

When I dream, it makes me work harder and become a better person. I know I will be important and help society. ”

WHAT. A. YEAR.

A new **name**, a new **school**, a new **city**, a new **field**, and new **friends**.

All the while, more than 2,200 youth opened their books, put on their jerseys, and gave their best in the classrooms and on the fields.

We're proud to share that 100% of our seniors graduated from high school and matriculated into college. At our newest site in Newark, our K-1 students spent over 2,000 hours building literacy skills this

summer, resulting in 100% of participants avoiding summer learning loss. We cut the ribbon on our second Field of Dreams—this time, in the South Bronx. Our DREAM Charter School elementary and middle school scholars outperformed the district, city, and state in both ELA and Math state tests. And we opened DREAM Charter High School last fall to 100 ninth graders.

We have much more to share in these coming pages and we're excited for you to meet some incredible members of the DREAM family who represent our work in action.

Year after year, we continue to grow—not for growth's sake—but to embrace and pursue our mission, and to provide more opportunities for young people to recognize their potential and realize their dreams.

This is why we DREAM.

Thank you. The amazing work that goes on in our classrooms and programs in East Harlem, the South Bronx, and Newark, is fueled by your support and belief in our mission.

We're grateful for another amazing year powered by you. Thank you and onward!

#WHYI **PLAY**

In baseball, you set your own limits.

“ People try to place limits on kids like me about how far we can go, especially in my community. But in baseball, you create your own floor and your own ceiling. I play to become a better player

and a better person. I play to succeed because that means my teammates succeed. I play for social justice and education reform. It's bigger than me.”

#WHY I LEARN

I want to open people's eyes.

“ I want people to see the world beyond themselves. That's why I love to write. At DREAM, I learn about history and current events, and I channel what I learn into my writing, whether it's a play about immigration for my

literature class, or an essay on the healthcare debate. There is power in writing, and I am eager to discover how I can harness that power and use it to make an impact. ”

$2\frac{3}{4} = \frac{44}{16}$

$\frac{44}{16} \div \frac{3}{16} = \frac{44}{16} \times \frac{16}{3} = \frac{44}{3} = 14\frac{2}{3}$

#WHYI

GROW

I want to be a
neurosurgeon.

“ I know high school will be hard and college will be even harder. And then, there’s medical school. But I won’t give up. When you have a dream, it shows what your purpose is and what you are working toward. At DREAM, I learn to build a mindset to persevere. I will become a neurosurgeon. ”

Travis Walls, Coach of the Year (South Bronx Pride), DREAM Staff

#WHY? COACH

For one, I learn cool lingo that keeps me young.

“ But I coach to win—and I’m not just talking about games. That moment when a kid catches the ball for the first time or when he nails down a math concept—that’s what I call a victory.

If you want to move the needle in a community and in the arc of a young person’s life, you volunteer at DREAM.”

#WHYI TEACH

It's endless work
but it's worth it.

“ I don't look for perfect students. Bring me the kids who don't want to learn. My dream is to raise them into confident students who believe they can become better each day. I want my kids to invest in their own growth as learners, thinkers, and change makers so that they can develop deep passions and interests to pursue.”

WHAT'S AHEAD

Over the past 27 years, DREAM has expanded and evolved to meet the needs of the communities we serve. We dug our roots a little deeper each year to tackle the most difficult barriers our children face: educational inequality, lack of health and wellness education, teenage pregnancy, and low high school graduation and college matriculation rates.

But we're far from done. With the lessons we've learned thus far, we will continue to look for smarter ways to further integrate our work in a seamless, intentional, and impactful way.

Our dream is to provide each and every single young person who walks through our doors with equal opportunity to reach their potential.

We want to engage the whole child by investing more deeply in their physical and mental health, social-emotional well being, academic achievement, and their ability to self-advocate—all to ensure they graduate from college prepared to lead happy, productive lives.

We're excited for what's ahead and look forward to providing even more youth the chance to realize their dreams with us.

FINANCIALS

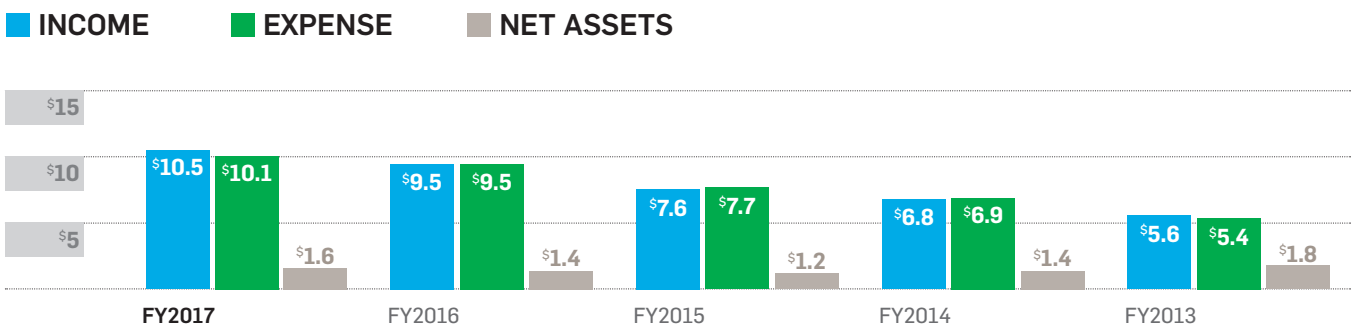

DREAM is proud to report another year of strong support from our amazing donors who enabled us to serve more youth than ever before. As we look ahead toward growth and deeper involvement in our communities, we remain committed to fiscal prudence to ensure sustainability and high-quality programming for every youth and family we serve.

#WHY I GIVE

We give to DREAM because you see results.

“ DREAM kids get amazing opportunities to succeed, making their way from elementary school all the way through college. They are surrounded by awesome

people who support and believe in them, and we want to be a part of that team. And, we give because of the big smiles on every kid we meet. What could be better than that? ”
